PART ONE

The Context of Community and Public Health Nursing 1

CHAPTER 1

Foundations of Public Health Nursing 3

U.S. Healthcare System and Reform in the 21st Century 4 Public Health 7 Roots of Public Health Nursing 12 Public Health Nursing Today 16 Challenges for Public Health Nursing in the 21st Century 22

CHAPTER 2

Public Health Systems 34

Importance of Understanding How Public Health
Systems Are Organized 36
Structure of Public Healthcare in the
United States 36
Functions of Public Health in the United States 39
Trends in Public Health in the United States 41
Healthcare Systems in Selected Developed
Nations 43
Public Health Commitments to the World:
International Public Health 50

CHAPTER 3

Health Policy, Politics, and Reform 55

Understanding Policy 58
Policy Activities of Professional Nursing
Organizations 64
Politics, Influence, and Advocacy 65
The Economics of Healthcare and Health Policy 68
Addressing Cost, Quality, and Access to Services in
Healthcare Policy 69
Healthcare Reform in the United States 70
Nursing Advancing Health Equity 76
Conclusion 78

CHAPTER 4

Global Health 80

Definitions of Health 82
Global Health 84
Sustainable Development Goals 88
Global Health Exemplars: When Nurses Lead,
Transformative Change Is Possible 98
Nurses as Global Citizens 104

PART TWO

Evidence-Based Practice and Population Health 107

CHAPTER 5

Frameworks for Health Promotion, Disease Prevention, and Risk Reduction 109

Health Promotion, Disease Prevention, and Risk Reduction as Core Activities of Public Health 112

Healthy People Initiatives 112

Road Maps to Health Promotion 114

Behavior Models 119

Use of the Ecologic Model: Evidence for Health Promotion Intervention 125

Health Promotion and Secondary/Tertiary Prevention for Women Living With HIV/AIDS 127

Health Literacy 128

Health Literacy and Health Education 132

Health Literacy and Health Promotion 137

Role of Nurses 139

CHAPTER 6

Epidemiology: The Science of Prevention 141

Defining Epidemiology 143
Development of Epidemiology as a Science 144
Epidemiologic Models 148
Applying Epidemiologic Principles in
Practice 150

CHAPTER 7

Describing Health Conditions: Understanding and Using Rates 159

Understanding and Using Rates 162
Specific Rates: Describing by Person, Place, and
Time 166
Types of Incidence Rates 171
Sensitivity and Specificity 173

CHAPTER 8

Gathering Evidence for Public Health Practice 176

Epidemiologic Research 178

PART THREE

Implementing Nursing Practice in Community Settings 189

CHAPTER 9

Planning for Community Change 191

Health Planning 192
Systems Theory 196
Working With the Community 196
Social Ecological Model 198
Multilevel Interventions 199
Social Determinants of Health 200
Change Theory 202
Planning Community-Level Interventions 205
Collaboration and Teamwork 208
Evaluating Community-Level Interventions 210
Funding Community-Level Intervention
Programs 211
Social Marketing 214

CHAPTER 10

Cultural Awareness, Sensitivity, and Respect 217

Culture 218
Cross-Cultural Nursing 219
Aspects of Culture Directly Influencing Health and
Healthcare 224
Cultural Health Assessment 229

CHAPTER 11

Community Assessment 230

Defining the Community and Its Boundaries 232 Frameworks for Community Assessment 235

CHAPTER 12

Care Management, Case Management, and Home Healthcare 247

Care Management 249
Case Management 249
Home Healthcare 250
Home Healthcare and Current Healthcare
Reform 265

CHAPTER 13

Family Assessment 267

Family Nursing Practice 269
Understanding Family 270
Family Nursing Theory 274
How Community Health Nurses Support
Families 281
Community Health Nurses' Responsibility to
Families 287

PART FOUR

Challenges in Community and Public Health Nursing 289

CHAPTER 14

Risk of Infectious and Communicable Diseases 291

Epidemiology of the Infectious Process: The Chain of Infection 294
Outbreak Investigation 297
Healthcare-Associated Infections 299
Community-Acquired Infections 299
Public Health Surveillance 300
Surveillance of Foodborne and Waterborne Diseases 300
Surveillance of STIs 304
Surveillance of other Selected Infectious Diseases 308
Vaccine-Preventable Diseases 314

CHAPTER 15

Emerging Infectious Diseases 320

Factors That Influence Emerging Infectious
Diseases 322
Recent Emerging Infectious Diseases 323
SARS-CoV-2 (COVID-19): The Largest Infectious
Disease Threat in 100 Years 331

xviii Contents

Other Recent Emerging Infections 345 Antibiotic-Resistant Microorganisms 353 Conclusions 355

CHAPTER 16

Violence and Abuse 357

Overview of Violence 359
IPV: A Major Women's Health Problem 364
Mandatory Reporting of Abuse 374
Human Trafficking 377
Model of Care for Victims of Intentional
Crimes 379

CHAPTER 17

Substance Use Disorder 381

International Aspects of Substance Use 383
Health Profiles and Interventions for High-Risk
Populations 390
Impact on the Community 403
Public Health Models for Populations at Risk 403
Treatment Interventions for Substance
Misuse 408
Goals of Healthy People 2030 415

CHAPTER 18

Health Inequities in Populations 418

The Context of Health Risks 420
Rural Populations 422
Correctional Health: Underresourced Populations in Jails and Prisons 431
Gay, Lesbian, Bisexual, Transgender, Queer, Intersex, Asexual Plus (LGBTQIA+) Community 435
Veterans and Health 437
Reflecting on Health Equity and Underresourced Populations 438

CHAPTER 19

Environmental Health 444

History of Environmental Health 446
Nursing and Environmental Health 447
Human Health and the Environment 447
Assessment 448
Interventions 464
Evaluation 465
Environmental Epidemiology 466
Working Toward Healthy Environments 467
Children's Health and the Environment 468
Environmental Justice 469
Global Environmental Health Challenges 470

CHAPTER 20

Community Preparedness: Disaster and Terrorism 475

Role of Nursing in Disasters 477
Disasters 478
Disaster Preparedness in a Culturally Diverse
Society 480
Disaster Management 481
Roles of Nurses in Disaster Management 488
Bioterrorism 489
Chemical Disasters 494
Radiologic Disasters 497
Blast Injuries 498
Public Health Disaster Response 499

PART FIVE

Specialty Practice 503

CHAPTER 21

Community Mental Health 505

Cultural Context of Mental Illness 507
Definitions of Mental Illness 507
Scope of Mental Illness 508
The Impact of COVID-19 on Mental Health and Substance Use 508
Some Major Mental Illnesses 510
Evolution of Community Mental Health 523
Legislation for Parity in Mental Health Insurance Benefits 524
Roles and Responsibilities of the Community Mental Health Practitioner 525
Psychological First Aid 526

CHAPTER 22

School Health 533

Pandemics 561

The Future of School Health 562

Historical Perspectives and Laws Governing Public
Health School Nursing Services 536
Scope of School Health Services 537
Environment and Organization of School Health
Programs 538
Components of the School Nurse's Role 540
School Health Screenings, IHP, IEP, and 504 Plan 547
Common Chronic Conditions and School-Based
Care 548
Behavioral Health and Wellness in School
Health 555
Health Promotion 560
The School Nurse Role in Outbreaks and

CHAPTER 23

Innovative Community Engagement Practice to Advance Population Health 565

Understanding Community Engagement 566
Community Engagement to Advance Population
Health 569
Integrating Community Engagement In Community
Locations 574
Ethical Considerations 584

CHAPTER 24

Palliative and End-of-Life Care 587

Social Trends and Challenges In Serious Illness,
Death, and Dying 589
Nursing Role in End-of-Life Care 590
Palliative Care 591
Hospice Care 592
Death and Dying in the United States 595
Caring for People at the End of Life 601
Complementary and Integrative Therapies 608
Nursing Care of People who are Close to Death 608

CHAPTER 25

Occupational Health Nursing 612

The Worker and the Workplace 614
Occupational Health Nursing 617
Conceptual Frameworks 620
Occupational Health Nursing: Practice 623
Implementing Health Promotion In the
Workplace 630
Implementing a Program: Example, Smoking
Cessation 631
Epidemiology and Occupational Health 632
Emergency Preparedness Planning and
Disaster Management 634
Nanotechnology and Occupational Safety and
Health 635

Index 638
